REASONS FOR ALLOWANCE

Response to Amendment

1. The Amendment After Non-Final Rejection filed on August 3, 2007 has been received and made of record. Examiner notes that the Applicant has added new claims 19-24 which include limitations similar to those of claims 1-3, 5, 7-8, and 10-12. Claims 1-3, 5, 7-8, 10-12, and 19-24 are pending in the application.

Allowable Subject Matter

2. Claims 1-3, 5, 7-8, 10-12, and 19-24 are allowed.

The following is an examiner's statement of reasons for allowance: As to independent claim 1, the prior art does not teach or fairly suggest a timing/control circuit in the image capture mode directing pixels to be read out sequentially on a row-by-row basis to the signal processor with each row having only one pixel per column that is read out at a single time while in the battery charging mode the timing/control circuit directs multiple pixels in each individual column to simultaneously and continuously provide continuous current to the battery charger.

The reasons for the allowance of independent claims 10 and 21 are similar as it includes limitations similar to those of claim 1.

As to claim 2-3, 5, 7-8, 11-12, 19-20, and 22-24, these claims are dependent upon allowable claims 1, 10, and 21 and are thus also considered allowable over the prior art
